

About decimo

decimo gmbh is an innovative fintech company that supports self-employed, freelancers and small to medium-sized companies with the pre-financing of invoices (factoring).

decimo was founded in 2014 by Andreas Dubrow with the aim of providing self-employed and freelancers a clever way to manage their invoices. The users are protected at the same time before payment delays and payment defaults. With this idea, decimo has since succeeded in inspiring national and international customers.

The BaFin license issued in 2014 also guarantees decimo gmbh's trustworthy, reliable and reputable service.

Our services:

- Invoice management incl. free invoice generator
- Pre-Financing of invoices
- Dunning
- Protection against payment default
- Each invoice can be submitted individually
